Year Plan fysik kemi grade 9 2023 2024

Topic	Week number
Radioactivity	
Introduction. The history of radioactivity	32
Properties of 3 kinds, atomic reactions for 3 kinds.	33
Experiments related to properties. Penetration. Background radiation	34
Ionising radiation and health. Uses of radioactivity. Risks of radioactivity. Experiments linked to this theme.	35
Half life. Uses and modelling.	36
	37 London
Nuclear energy. Advantages and disadvantages. The role it could play in climate change.	38

The role of radioactivity in the Earth's history. Albedo effect, and how volcanic activity created the greenhouse effect. Earthquake in Japan Waves Radioactivity Linked to volcanic work in geo Exam and fællesfor/øb in 2 areas: consider earthquake in Japan, sustainable production of energy, climate change in relation to pollution 42 half term 43 exams A Journey to Space A trip to mars intro Defining force, speed and acceleration. Force Diagrams Newton's 3 laws Newton's 3 laws, weight and mass Gravity. Free fall. Atmospheric pressure define. Atmospheric pressure on Mars, and issues this causes. For example, sublimation of water. Terraforming Mars. Issues relating to magnetic field, water, pressure, travel, greenhouse effect, fertile soil. 48 emneuge Test and fælles forløb 49 Test and fælles forløb 50 Metals and ions. Recap on bonding Exams 2 Metals' properties Metals in use Electricity and metals with recap on electricity. Covalent bonding 44 Covalent bonding		
activity created the greenhouse effect. Earthquake in Japan Waves Radioactivity Linked to volcanic work in geo Exam and fællesforløb in 2 areas: consider earthquake in Japan, sustainable production of energy, climate change in relation to pollution 42 half term 43 exams A Journey to Space A trip to mars intro Defining force, speed and acceleration. Force Diagrams Newton's 3 laws Newton's 3 laws, weight and mass 45 Gravity. Free fall. Atmospheric pressure define. Atmospheric pressure on Mars, and issues this causes. For example, sublimation of water. Terraforming Mars. Issues relating to magnetic field, water, pressure, travel, greenhouse effect, fertile soil. 48 emneuge Test and fælles forløb 49 Test and fælles forløb 50 Metals and Ions Metals and ions. Recap on bonding Exams 2 Metals' properties Metals' properties Metals in use Electricity and metals with recap on electricity.	The role of radioactivity in the Earth's	39
